What I Will Do:

- Assessment - a holistic person centered assessment is the first step
- Plan of Care- a document we create together that outlines the goals & specific steps I will take
- Arrange for services
- Monitor services
- Provide caregiver supports
- Offer counseling- including family counseling & crisis intervention

My Experience:

I have over 25 years of experience providing geriatric care management. My clients and their families trust and feel comfortable with me, because I love my work and I am:

- A Licensed Masters level Social Worker (LMSW) whose expertise is care management
- An independent care manager who works only for my clients and their families
- A competent & compassionate professional who understands the complicated maze of our health care system and **knows how to get things done**
